

THE WORLD'S LEADING LIFE SCIENCES DATABASE

BIOSIS LIFE SCIENCE DATABASES

MULTIDISCIPLINARY LIFE SCIENCES COVERAGE AND SPECIALIZED INDEXING

WHAT YOU'LL FIND

- Access to *BIOSIS Previews*[®], *Biological Abstracts*[®], and *Zoological Record*[®]
- Coverage of journals, scientific conferences, patents, books, review articles, and more
- The definitive animal biology resource and the world's leading taxonomic reference
- Specialized indexing
- Insightful analysis options
- Additional coverage and capabilities via *ISI Web of Knowledge*SM data and tools
- Over one hundred years of backfile data

WHAT YOU CAN DO

- Speed development ideas through R&D
- Find first mentions of plants, organisms, chemicals, or laboratory techniques
- Identify qualified collaborators through citation analysis
- Discover emerging trends to pursue successful research and grant acquisition
- Prepare patent applications, check patent status
- Integrate searching, writing, and bibliography management into one streamlined process

SEAMLESS ACCESS, RESEARCH, AND DISCOVERY IN THE LIFE SCIENCES

BIOSIS life sciences databases deliver current, multidisciplinary information, covering more fields of life sciences research than any other database in the world, including agriculture, biodiversity, biotechnology, botany, drug discovery, gene therapy, marine biology, wildlife conservation, zoology, and other topics. BIOSIS also provides specialized indexing, with tags to vital data such as CAS Registry numbers, Enzyme Commission numbers, and cross-references throughout to gene, disease, and organism names.

ISI Web of Knowledge homepage
Search BIOSIS databases with other *ISI Web of Knowledge* content, for a unified, complete search.

THE ISI WEB OF KNOWLEDGE ADVANTAGE

Accessing *BIOSIS Previews*, *Biological Abstracts* or *Zoological Record* on the *ISI Web of Knowledge* platform means you can simultaneously search these databases — and all other *ISI Web of Knowledge* resources your institution subscribes to. One common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases. Through *ISI Web of Knowledge*, you can take advantage of powerful capabilities that ease your search and help you put your results to use:

ANALYZE TOOL

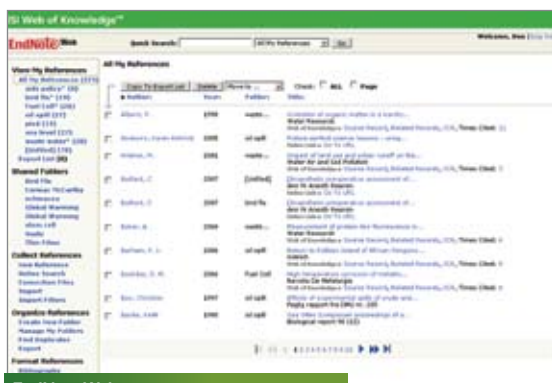

Discover vital trends and patterns — the top authors, institutions, and journals, as well as hot topics and emerging trends.

ALERTING AND RSS FEEDS

Keep up to date by setting up email alerts or RSS feeds for your saved searches.

ENDNOTE WEB

Save and manage your references online with *EndNote Web*, fully integrated into *ISI Web of Knowledge* and freely available to any user. Access, organize, and send your references as you search, share *EndNote* folders with others, store references online between search sessions.

EndNote Web
Build a bibliography and format your papers instantly.

BIOSIS PREVIEWS • BACKFILES TO 1926

The comprehensive source for life sciences and biomedical research from journals, meetings, books, and patents. *BIOSIS Previews* combines journal content from *Biological Abstracts* with supplemental, non-journal content from *Biological Abstracts /RRM*® (Reports, Reviews, Meetings). Easily access literature in pre-clinical and experimental research, methods and instrumentation, animal studies, environmental and consumer issues, and other areas.

BIOSIS Previews
Explore the life sciences via specialized search fields.

to wildlife management, and has for years been the unofficial register of animal names. Determine the first appearance of an animal in the published literature, track classification changes, and monitor developments in ecology, conversion, and wildlife preservation.

BIOSIS DATABASE COVERAGE:

BIOSIS Previews:

- 5,000 journals, as well as non-journal literature
- Over 500,000 records added annually
- Available with over 18 million records to 1926

Biological Abstracts:

- Over 4,200 journals from 100 countries
- Over 350,000 records added annually
- Available with over 11.3 million records to 1926

Zoological Record:

- Nearly 5000 journals, plus non-journal coverage
- 75,000 records added annually
- Available with up to 3.5 million records to 1864

Refine Results
Narrow down your results using categories meaningful to your search.

BIOLOGICAL ABSTRACTS • BACKFILES TO 1926

An expansive index to the world's life sciences literature, covering over 4,200 journals from 100 countries. *Biological Abstracts* takes an interdisciplinary and in-depth approach that monitors every area of the life sciences. Coverage includes topics from botany to microbiology to pharmacology.

ZOOLOGICAL RECORD • BACKFILES TO 1864

The definitive animal biology resource and the world's leading taxonomic reference. Covers all of modern animal science research from biodiversity
