UP-TO-DATE INFORMATION FROM RELEVANT JOURNALS, BOOKS, AND WEB SITES

Current Contents Connect is a comprehensive current awareness database available through the *ISI Web of Knowledge* platform. Every journal included in *Current Contents Connect* has met the high standards of an objective evaluation process that eliminates clutter and excess and delivers data that is accurate, meaningful, and timely. And cover-to-cover indexing assures you of access to all the valuable information available in a journal—not just the articles. *CC Connect*[®] also covers selected Web sites.

ACCESS PRE-PUBLISHED CONTENT VIA EXCLUSIVE EFIRST

Through the eFirst feature, users can access a continually updated collection of peer-reviewed articles that provide bibliographic information from *Current Contents*[®] journals before each issue is published. Users can link to the full text from eFirst records and automatically receive relevant eFirst articles in their searches and alerts. *CC Connect* is the only source for multidisciplinary, multipublisher, pre-published content.

THE ISI WEB OF KNOWLEDGE ADVANTAGE

You can simultaneously search *CC Connect* with other *ISI Web of Knowledge* resources your institution subscribes to. The powerful capabilities of this premier research platform make searching, analyzing, and organizing global research data more efficient and effective. And one common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases, delivering more complete and relevant results.

Refine Results

Narrow down your results using categories meaningful to your search.

ANALYZE TOOL

Find hidden trends and patterns, gain insight into emerging fields of research, identify leading researchers, institutions, and journals, and trace the history of a particular field of study. You can analyze results by author, publication year, journal subject category, institution, language or source title, and view a numerical, percentage and graphical representation of the analysis.

AUTHOR FINDER

Quickly distinguish between authors who have the same name and group an author's output when the name is recorded in several different formats.

ENDNOTE® WEB

Create bibliographies on the go with *EndNote Web*, fully integrated into *ISI Web of Knowledge* and freely available to any user. With *EndNote Web*, you can easily access and organize your references online as you search *ISI Web of Knowledge*, PubMed® and hundreds of library OPACs directly. You can send references to *EndNote Web* as you search, share *EndNote Web* folders with others, store references online between search sessions and transfer your files to *EndNote* on the desktop for further management.
