

# INSPEC

INTERNATIONAL SCIENTIFIC AND TECHNICAL LITERATURE  
IN PHYSICS AND ENGINEERING

## WHAT YOU'LL FIND

- Data from more than 4,500 scientific and technical journals, as well as books, reports, and 2,200 conference proceedings
- More than 10,800,000 bibliographic records from publications worldwide
- Approximately 600,000 records added annually
- Direct links to your full-text collections
- Fully searchable and indexed backfiles to 1898
- Full integration with *ISI Web of Knowledge* content and capabilities

## WHAT YOU CAN DO

- Produce high quality research that reflects novel ideas and emerging trends
- Forecast emerging technological trends that help you pursue successful research and grant acquisition
- Identify potential collaborators with significant citation records
- Monitor current developments at other institutions
- Target high-impact journals for publishing your manuscript
- Integrate searching, writing, and bibliography creation into one streamlined process

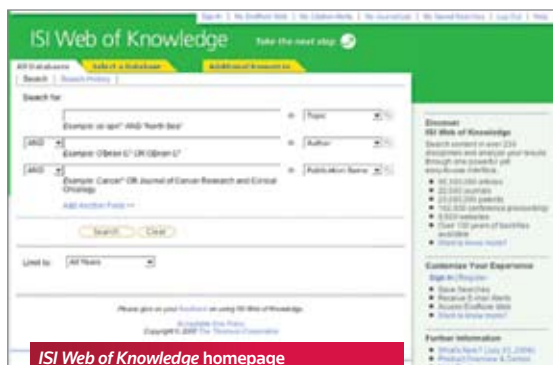

## COMPREHENSIVE COVERAGE AND SPECIALIZED SUBJECT INDEXING

Inspec provides a comprehensive index to the literature in physics, electrical/electronic engineering, computing, control engineering and information technology, with significant coverage in areas such as materials science, oceanography, nuclear engineering, geophysics, biomedical engineering and biophysics.

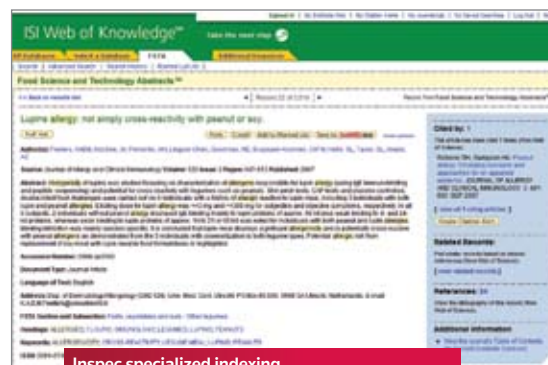

Updated weekly, Inspec provides data from journals, books, reports, and conference proceedings. You can use specialized Inspec indexing for more accurate retrieval, including Controlled Index Terms, Thesaurus Terms, Classification Code Indexes, Treatment Codes, and Chemical Substance, Numerical Data, and Astronomical Object Indexing. Inspec is produced by the Institution of Engineering and Technology (IET).

## BACKFILES AVAILABLE TO 1898

Track over 100 years of vital data and find the supporting – or refuting – data you need. The entire backfile of Science Abstracts Journals, the precursor to the Inspec database, is now in digital form. All 176 volumes now include modern indexing terms and search functions, to further ease your search. Only via *ISI Web of Knowledge* can you see citing information for these historic records. More backfiles give you the power to conduct deeper, more comprehensive searches and track trends through time.

**ISI Web of Knowledge homepage**  
Search Inspec and other content simultaneously, for a unified, complete search.

**Inspec specialized indexing**  
Take advantage of specialized indexing to find precisely the data you need.

## THE ISI WEB OF KNOWLEDGE ADVANTAGE

Accessing Inspec on the *ISI Web of Knowledge* platform means you can simultaneously search all other *ISI Web of Knowledge* resources your institution subscribes to. You can find complementary information in resources such as *Web of Science*<sup>®</sup>, while taking advantage of powerful tools such as cited reference searching. One common vocabulary within this platform enables your search terms to be matched to all relevant terms that may be categorized differently in other databases, delivering more complete and relevant results.

Word Classification	Word Count	Top 100%	See Chart
HEALTH CARE RESEARCH AND CARE SERVICES	100	100.00%

### Analyze Tool

Gain insight into research trends; identify leading researchers, institutions and journals.

## ANALYZE TOOL

Find hidden trends and patterns, gain insight into emerging fields of research, identify leading researchers, institutions, and journals, and trace the history of a particular field of study. You can analyze results by author, publication year, journal subject category, institution, language or source title, and view a numerical, percentage and graphical representation of the analysis.

## ALERTING AND RSS FEEDS

Keep up to date with the information that matters to you. Save searches as email alerts and set up RSS feeds for saved searches.

## ENDNOTE<sup>®</sup> WEB

Create bibliographies on the go with *EndNote Web*, fully integrated into *ISI Web of Knowledge* and freely available to any user. With *EndNote Web*, you can easily access and organize your references online as you search *ISI Web of Knowledge*, PubMed<sup>®</sup> and hundreds of library OPACs directly. You can send references to *EndNote Web* as you search, share *EndNote Web* folders with others, store references online between search sessions and transfer your files to *EndNote* on the desktop for further management.
