

Access an integrated reference citing solution — *EndNote Web* via *ISI Web of Knowledge**

ISI Web of Knowledge users have a new personalization option — *EndNote Web*. This Web-based tool provides users with online storage for their references and the ability to instantly format bibliographies in their word processor.

The *ISI Web of Knowledge* research platform continues to add capabilities that simplify the exploration and publication of the literature. Along with cited reference searching, the Analyze tool, and a direct export to *EndNote*® on the desktop, users may access *EndNote Web*, expanding their reference management to the Web.

Organize, store and share references online

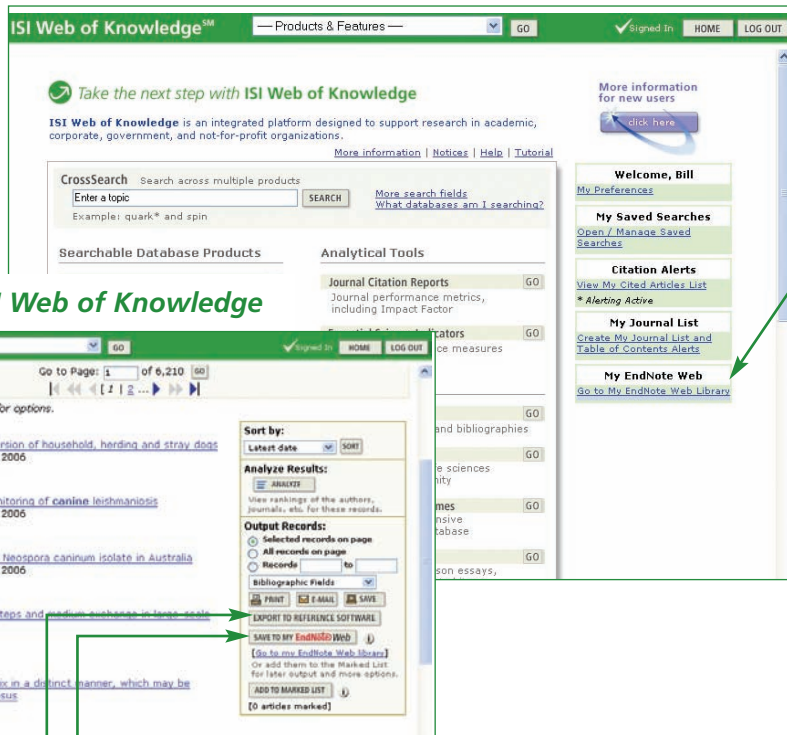

The integration of *ISI Web of Knowledge*, *EndNote* and *EndNote Web* saves users time navigating between powerful research tools and is the perfect solution for students and for researchers — in the library, at the office, at home or on the road:

- *ISI Web of Knowledge* users can send one or more references to their *EndNote Web* library in one step — just as they do with *EndNote*
- *ISI Web of Knowledge* identifies references stored in *EndNote Web* for future searches
- Papers can be cited using both *EndNote X* and *EndNote Web*, enhancing collaboration among colleagues
- *EndNote Web* presents users with links to Times Cited, *Related Records*® and the full record for one-click access to the latest information on a reference article
- *EndNote Web* transfers references directly to *EndNote X* on the desktop
- *EndNote Web* lets users collaborate easily — sharing their *EndNote Web* folders with other *EndNote Web* users

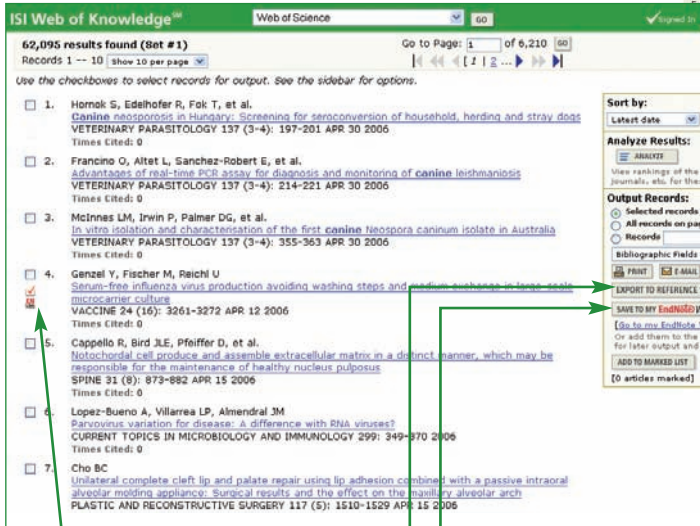

The addition of *EndNote Web* helps undergraduate students organize their references for citing in papers. For the professional researcher and graduate student who depend on *EndNote* and other desktop writing tools, *EndNote Web* is the perfect complement for storing references between *ISI Web of Knowledge* search sessions. Now the millions of *EndNote* users who demand a robust desktop writing tool with a higher degree of accessibility and control can be even more productive using the combination of *EndNote X* and *EndNote Web*.

The fully integrated and comprehensive solution for discovery and publishing

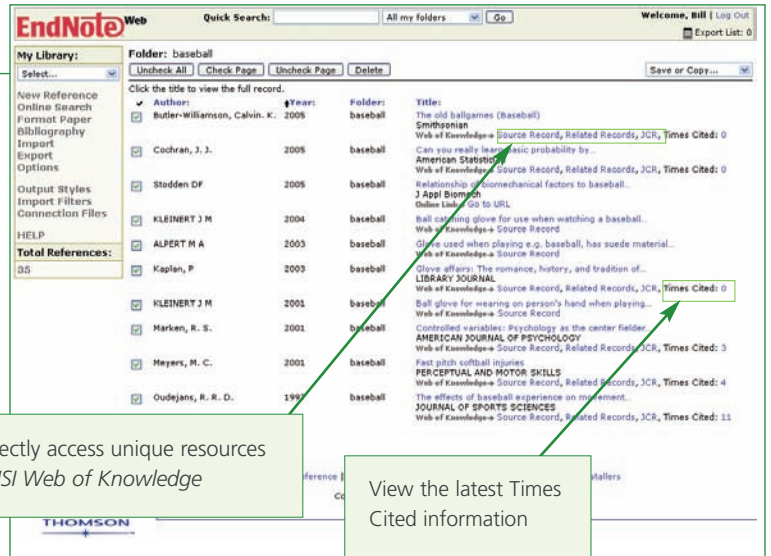

The *ISI Web of Knowledge* platform provides a unique combination of online search and analysis resources and the powerful bibliographic tools *EndNote* and now *EndNote Web* — all designed to work together seamlessly.

Easily save records from ISI Web of Knowledge

Utilize intelligent Cross-Linking with ISI Web of Knowledge

With EndNote Web, users can:

- Search ISI Web of Knowledge, PubMed and hundreds of library OPACs directly
- Import references from hundreds of online bibliographic databases
- Store up to 10,000 records per user account
- Edit reference detail — add notes and keywords, modify any field
- Use over 2,300 publishing styles to format in-text citations and bibliographies
- Cite While You Write™ in Microsoft Word (requires plug-in)
- Format papers in other word processors using RTF (rich text format) files
- Simplify collaboration with colleagues — share EndNote Web folders
- Use EndNote Web toolbars in Microsoft Internet Explorer and Mozilla® to access your reference library in one click, and capture citation data easily (requires plug-in)
- Transfer references between EndNote Web and EndNote X seamlessly (desktop to Web or Web to desktop)
